

Anglepoise Industries Limited

1st September 2016

To whom it may concern,

David Turner has had a strong business relationship with the McKenzie family for in excess of 10 years.

During this period he has been instrumental in both the acquisition and Sales process of a number of Industrial Units. In addition he has taken on the responsibility of successfully leasing the units when they became available.

I have found David honest, sincere, and very professional in his approach to the Commercial Property Market, and whose advice on future trends in the market have been accurate and percipient.

David is both a Director and Shareholder in Commercial Realty Limited, specialist Real Estate Office, in business for 27 Years.

I would have no hesitation in recommending David to either Buyer or Seller to act on their behalf.

Yours Sincerely,

Lincoln McKenzie
Director

In the course of my 13 -year business association with David Turner he has always put in the maximum effort to achieve the best possible result in any deal.

During the many transactions that David has been involved in as my agent, I have found him to always act honourably and fairly with my interests at heart.

My tenants have also found David to be very helpful and fair to deal with.

To Whom it May Concern
Business Reference | Prepared by TVH NZ Ltd for Commercial Realty Limited

We first met David Turner from Commercial Realty in 1997 where we bought and a few years later sold a unit situated in Highbrook. Since then TVH have bought two more units through David and have also leased another warehouse in the same block. David also sold both these units, 8 years later.

More recently David was instrumental in helping TVH with a large design build project in Lady Ruby Drive, East Tamaki. We have found David to be of good character and honest with his knowledge in the East Tamaki Industrial market.

We would have no hesitations to recommend or have further dealing with David and the team at Commercial Realty.

Mason Smith
Managing Director
TVH NZ Limited
